- *Key contents:*
 - ✓ A React website with responsive design.
 - ✓ Data-driven UI
 - ✓ HTML5 + CSS3

Adopt Me

- *Project description:* A single-page web app for helping people adopt animals.
- *Technology involved:* React, HTML, CSS, TypeScript, Jest, Node.js
- *Live Demo:* <https://blingblingda.github.io/adopt-me>
- *Key contents:*
 - ✓ Using React State Hook for state management.
 - ✓ Loading data via React Effect Hook and Fetch.
 - ✓ Handling state errors in react hook.
 - ✓ Using Jest for unit tests.

Food Ordering

- *Project description:* An online food ordering website demo.
- *Technology involved:* React, HTML, CSS, Node.js
- *Live Demo:* <https://blingblingda.github.io/food-order>
- *Key contents:*
 - ✓ A single-page application built by React
 - ✓ Using CSS Module
 - ✓ Using firebase as a backend

Work Experience

Cross-departmental collaboration experience

- Worked as a consultant from the financial team to discuss new software features with the IT department and provided some recommendations for software upgrades.
- Using the excel spreadsheet designed and created a financial pricing model for the sales team.
- Developed marketing plans and organised marketing events to promote services to students applying for courses and visas in Australia. This included collaboration with the sales and visa departments.

Team Work

- Participated in finance team meetings, effectively cooperated with the team to complete preparation of various financial statements, diagnosis of financial health, production/analysis of financial reports, etc. Won Dream Team Award for 2021.

- Worked with teammates to create export documents, reviewed and managed export certificates, tracked the delivery of each batch of goods and checked the relevant data to ensure a smooth international export delivery.
- Worked as a consultant team member to assist students with choosing institutions and courses and completing application forms and related paperwork.

Planning & Organisation

- Created a plan for a financial software change, ensuring all financial data had been organised and migrated smoothly and accurately on time.
- Prepared and analysed financial reports, organised monthly financial review meetings, explained financial statements to the management team and helped them to draw attention to important aspects of the financial data.
- Communicated with clients effectively and designed an ideal service plan by considering different applicants' requirements and processing progress.

Training and presentation experience

- Prepared quarterly financial training for the sales department, mainly focusing on explaining the company's latest financial policies, financial pricing models for events, and restaurant partners' frequently asked questions.
- Organised semi-annual personal tax information sessions for all employees of Australian branches, focusing on individual tax returns and the latest tax policies.
- Received regular training from universities and institutes about updated information, then gave a presentation to team members and explained the latest policies.
